## Introduction

This Digest has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.

The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged.

The figures in the Digest are mainly totals for calendar months or monthly averages.

#### Provisional data

Some figures in *Monthly Digest* are provisional and may be subject to revision in later issues. This applies particularly to data for the most recent time periods.

#### Definitions

A Supplement of Definitions and Explanatory Notes, published with the January issue, gives detailed definitions of all the terms and units used in the Digest. The following general definitions should be noted in using the Digest.

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Consumption and stocks. The terms 'consumption', 'disposals' and 'stocks' are defined in detail in the Supplement to the Digest. Figures of consumption and stocks are seasonal and should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

External trade. Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

#### Symbols and conventions used

Symbols. The following symbols are used throughout:

- .. not available
- nil or less than half the final digit shown
- \* average (or total) of five weeks

Change of basis. A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

Rounding of figures. In tables where figures have been rounded the the nearest final digit, there may be a slight discrepancy between the sum of the constituent items and the total as shown.

Central Statistical Office Great George Street London, SWIP 3AQ

30 March 1987

#### CSO Databank

Certain tables in this publication contain data available via the CSO Databank. Wherever this occurs the appropriate four digit identifier is included at the top of the column of figures. This is to facilitate access to the data in computer readable form and make available longer runs of data than appear in these tables.

The CSO databank is a collection of macro-economic time-series on sale to the public. The service is run on CSO's behalf by WEFA Ltd., further details can be obtained from them at:

Ebury Gate, 23 Lower Belgrave Street, London SWIW 0NW, tel: 01-730-8171.

Equals total final expenditure on goods and services at market prices less imports of goods and services.
 Equals gross domestic product at market prices less taxes on expenditure plus subsidies.
 Estimates of the gross domestic product at constant factor cost based on statistics of output are given in Table 1.3.

<sup>4.</sup> This represents taxes on expenditure less subsidies valued at constant rates.

## 1 1 Expenditure on the gross domestic product: revalued at 1980 prices

#### Factor incomes in the gross national product

£ million

<sup>1.</sup> Before providing for depreciation and stock appreciation.
2. Equals total personal income before tax less payments of taxes on income, social security, contributions and other current transfers.
3. Before providing for depreciation, stock appreciation and additions to tax reserves.
4. This table is revised and brought up to date in the January, April, July and October issues. In the March, June September and December issues Table 1.5 may show more up-to-date figures for consumers' expenditure than those shown here.
5. Personal saving as a percentage of total personal disposable income.
6. Personal disposable income revalued by the implied consumers' expenditure deflator (1980 = 100).

### Consumers' expenditure

1.5 Cons

£ million

The working population consists of the employed labour force and the unemployed (claimants), the employed labour force includes employers, self-employed and HM Forces as well as employees in employment.
 From April 1983, the figures of unemployment reflect the effects of the provisions in the Budget for

2. From April 1963, the injures of unemployment reflect the effects of the provisions in the Budget for some men aged 60 and over who no longer have to sign at an unemployment office.

3. Estimates of employees in employment up to June 1985 take account of the results of the 1983, 1984 and 1985 Labour Force surveys. Estimates for later periods include an allowance for continued undercounting (see the article on page 161 of the May 1986 Employment Gazette). Estimates of the self-employed up to mid 1985 are based on the results of the 1981, 1983, 1984 and 1985 Labour Force Surveys. The provisional min 1985 are based on the results of the 1981, 1985, 1984 and 1985 Labour Force Surveys. The provision estimates from September 1985 are based on the assumption that the average rate of increase between 1981 and 1985 has continued subsequently. A detailed description of the current allowances is given on page 135 of the May 1986 Employment Gazette.

4. HM Forces figures, provided by the Ministry of Defence represent the total number of UK service personnel, male and female, in HM Regular Forces, wherever serving and including those on release leave. The numbers are not subject to seasonal adjustment.

5. See Note on page 25.

Note: Machinery of Government changes prior to 1 April 1983 are given in the Monthly Digest Annual

Supplement on page 5.

1. As of 1 April 1984 the Victoria and Albert Museum and the Science Museum became non-manpower count bodies, they have been accorded Trustee Status - around 1100 staff involved.

From 1 April approximately 1100 staff of the Directorate of Historic Monuments and Ancient Buildings have been transferred to a new commission outside the manpower count.
 From 1 April 1984 responsibility for the Passport Office was passed to the Home Office from the Foreign

and Commonwealth Office (around 950 staff involved).
4. 279 non-industrial staff employed in the Radio Regulatory Department of the Home Office were transferred to the Department of Trade and Industry in June 1983.

5. From June 1983 the Departments of Trade and Industry have become one department, The Department of Trade and Industry.

17aos and industry.

6. Some 1454 non-industrial staff employed in the aviation and shipping divisions of the former Department of Trade were transferred to the Department of Transport, in June 1983.

7. On 1 July 1984 a new department, the Office of Telecommunications, was formed under the responsibility of the Secretary of State for Trade and Industry.

8. On 2 January 1985 the Royal Ordnance Factories were incorporated as a Companies Act company and are no located in the response properties.

no longer included in the manpower count.

9. There were 345,036 males and 249,329 females in the Civil Service on 1 April 1986, the latest date for which

information is available.

Regard must be taken of the effect of seasonal patterns and differences in planned annual intake levels in any comparisons of quarterly or annual intakes.
 Some personnel have a liability for Reserve Service. The figures include deaths.
 The differences between strengths at successive dates may not match the intake and outflow figures for corresponding periods because of delays in recording transfers between the Services and similar occurrences.

Figures are based on surveys undertaken on behalf of central and local government by the Local Authorities' Conditions of Service Advisory
Board and the National Joint Council for Local Authority Services (Scottish Councils).
 Based on the following factors to convert part-time employees to approximate full-time equivalents: for teachers and lecturers in further

education,
0.11; teachers in primary and secondary education and all other non-manual employees, 0.53; manual employees, 0.41.
3. Provisional figures.
4. Including central services departments (e.g. engineers and treasurers) and all services not shown separately.
5. Includes civilian employees of police forces, traffic wardens and police cadets.

Note: There has been a change in the compilation of the unemployment statistics (see Employment Note: There has been a change in the compilation of the unemployment statistics (see Employment Sourc Gazette, March/April 1986, pages 107-108). Unadjusted figures for February and March 1986 are on the new basis (estimated for February) and not directly comparable with earlier figures. It is estimated that the change reduces the total U.K. count by 50,000 on average. Seasonally adjusted figures have been revised to adjust for this and other discontinuities and are all consistent with the new coverage. The latest seasonally adjusted figures are provisional and subject to revision, mainly in the following month.

1. Percentage rates have been calculated by expressing the total numbers unemployed as percentages of the numbers of employees in employment, unemployed, self employed and HM forces at the appropriate mid-year.

2. From April 1 1983 figures are affected by the 1983 Budget provision for some men aged 60 and over who no longer have to sign on at an unemployment benefit office.

3. There was a discontinuity between the June and August 1985 figures for unemployed claiments in Northern

Sources: Department of Employment Department of Economic Development (Northern Ireland)

<sup>3.</sup> There was a discontinuity between the June and August 1985 figures for unemployed claimants in Northern Ireland. The monthly count is based on the Northern Ireland Department of Economic Development's computer records. A reconciliation with information on claims for benefit held in DHSS offices showed some people included in the monthly count who were no longer claiming benefit and some (a smaller number) who had not yet been included in the count even though they were claiming benefit. The net result was that the unadjusted July and August figures for Northern Ireland were 5 700 and 5 150 less respectively than they would have been without the reconciliation. If the figures had continued to be recorded as in June and earlier months there would have been increases in unemployment of about 3 150 in July and 650 in August. The accumulating discrepancy, since the present computer system was set up in October 1982, and the effect of the corrective action has now been taken into account in the seasonally adjusted series, so that it is consistent with the more accurate coverage of the current unadjusted data.

Note: The method used for compiling vacancy statistics has changed as from October 1985. See October issue of Source: Department of Employment

2. Included in South East.

Employment Gazetic.

1. About one third of all vacancies are notified to Jobcentres. These could include some that are suitable for young persons and similarly vacancies notified to careers offices could include some for adults. Because of possible duplication the two series should not be added together. The figures represent only the number of vacancies notified by employers and remaining unfilled on the day of the count.

<sup>2.</sup> Included in Journ East.
3. Vacancies on Government schemes (Enterprise Ulster and Action for Community Employment(ACE)) are not separately identified for Northern Ireland prior to December 1983.
4. The statistics of vacancy stocks were distorted in April and May because of a change in MSC's Employment Division's administrative arrangements. This led to an artificial increase in the April (March 29) level of unfilled vacancies, but the recorded stocks of unfilled vacancies for May should be minimally affected. affected

<sup>5.</sup> Includes vacancies on the Community Enterprise Programme, the forerunner of Community Programme.

1987 January	154	866	1	55	2	-	767	41

Excludes stoppages involving fewer than 10 workers or lasting less than one day except any in which the
total number of working days lost exceeded 100. There may be some under-recording of small or short
stoppages; this would have much more effect on the total stoppages than on working days lost. The figures
from 1986 are provisional.
 The figures of working days lost relate to the total working days lost within each of the periods shown as a
result of stoppages in progress in that period, whether the stoppages began in that period or earlier.

1. Includes overseas cases.

Source: Department of Health and Social Security

1. Includes overseas cases.

2. Yearly figures are averages of quarterly figures. Quarterly figures relate to the Thursday following the first Monday in the month.

3. Excluding claims made under the emergency benefit procedure. Figures for individual months are averages of the four or five weeks starting on the first Monday of each month.

4. Figures for individual months are averages of the four or five weeks ending on the last Tuesday of each

Excluding pensioners in receipt of non-contributory retirement pension awarded under National Insurance Acts 1970 and 1971 and cases where graduated pension only was awarded. 6. Including a diminishing number of widows with pensions of £1.50 a week derived from the old Contributory Pensions Acts. 7. Data not available due to industrial action. 8. Provisional.

1. Figures include estimates for minor holdings in England and Wales

Figures include estimates for minor holdings in England and Wales
but not for Scotland and Northern Ireland. For further details refer
to the Supplement of Definitions.
 Prior to 1986 collected as 'Beans for stock feeding' in England andWales.
 Fodder beet in Northern Ireland is included with turnips and swedes. In Scotland fodder beet was collected
separately for the first time in 1986.It was previously included with turnips and swedes.
 Includes 'Peas for harvesting dry for both human consumption and stockfeeding' from 1984 onwards.
 Figures relate to land usage at 1 June and are not necessarily good indicators of production as for
some crops more than one crop may be obtained in each season or a crop may overlap two seasons.
 Following a change of definition in 1986 'Horticultural crops' now excludes 'Peas for harvesting
dry for human consumption ' as well as 'Mushrooms'. The data from 1984 reflect this change.
 Included with other vegetables from 1983 onwards.
 Excludes area of small fruit grown under orchard trees in England and Wales which is returned as orchards.
 Provisional.

9. Provisional.

Sources: Agricultural Departments

- Except for sugar beet and hops the production area for England and Wales is the area returned at
  the June census together with estimates for minor holdings. In Scotland and Northern Ireland the area
  returned at June is also the production area except that estimates for minor holdings are included in Scotland
  for potatoes and in Northern Ireland for barley, oats and potatoes.

- for potatoes and in Northern Ireland for barley, oats and potatoes.

  2. Crop production figures for wheat and barley have been rounded to the nearest 10,000 tonnes: mixed corn, rye and hops to the nearest 1,000 tonnes and other agricultural crops to the nearest 5,000 tonnes.

  3. The yield and production data for sugar beet and hops are obtained from British Sugar plc and English Hops Ltd. respectively.

  4. From: 1984 the method of calculation of the potato yield and production data has been changed. The figures are now derived from Potato Marketing Board statistics.

  5. Collected as turnips, swedes and fodder beet in Scotland.

  6. Vields are estimated eversee gross yields, is the weight of crop that was available for harvesting from each hasters.
- 6. Yields are estimated average gross yields, ie the weight of crop that was available for harvesting from each hectare cropped during a single crop year. No deductions are made for the possibility that some of the crop was not harvested or for losses following harvesting.
- 7. Production is the product of yields and cropped areas. For some vegetable crops, the areas under production as the product of yields and cropped areas. For some vegetable crops, the areas under production may produce more than one crop during a single season and will therefore be greater than the areas measured by the June census (ie Table 6.1) by a factor equalling the number of crops harvested in any given year. Figures represent the maximum available supply during a single crop year, nominally the period 1 June to 31 May during which the bulk of the crop is harvested.

Sources: Ministry of Agriculture, Fisheries and Food Business Statistics

1. Based on returns from Potato Marketing Board and Department of Agriculture, Northern Ireland.

2. Back dated figures may differ from those previously published (prior to April 1986) due to a more reliable data coverage which was not previously available.

3. From January 1984, recorded stocks of imported and home-produced supplies of raw and refined sugar.

4. From January 1984, total UK consumption by food and other industries (including sugar used in manufactured goods).

5. Includes movements through recorded sources and an allowance for unrecorded sales. Potatoes processed for export are excluded.

6. Changes in stocks differ from movements into human consumption due to wastage when dressing potatoes on producers/merchants' premises.

7. From January 1984, total UK consumption excluding use by non-food industries.

8. 53-week period for syrup and glucose.

<sup>1.</sup> The figures relating to both home production and releases for home consumption take account of brewing at high gravity with the addition of some brewing liquor after fermentation.

2. Percentage alcohol by volume.

3. Before April 1983, the figures represent quantities of all mature home-produced spirits.

4. Includes imported spirits.

5. A small quantity of molasses spirit is used in beverage spirit production. See explanatory notes to Section 9 in the Supplement of Definitions and Explanatory Notes for this publication.

6. Provisional.

7. For the paried April 1984 to July 1985 the middle head included missage and the section of the paried April 1984 to July 1985 the middle head included missage and the section of the paried April 1984 to July 1985 the middle head included missage and the section of the paried April 1984 to July 1985 the middle head included missage and the section of the paried April 1984 to July 1985 the middle head included missage and the section of the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle head included missage and the paried April 1984 to July 1985 the middle

Source: H. M. Customs and Excise

For the period April 1984 to July 1985 the middle band included wine of a strength of exactly 15 per cent.

# Production, output and costs

The figures for manufacturing industries contain, where appropriate, an adjustment for stock changes and for measurement bias - see supplementary notes 1987 edition.
 For an index of construction output for Great Britain see Table 12.1
 Mainly building materials.
 Industries are grouped according to the Standard Industrial Classification 1980.
 Parts per thousand of GDP(O).

### Output of the production industries Detailed analysis

Electricity and gas sent out, water supply and nuclear fuel production.
 Mainly building materials.
 Industries are grouped according to the Standard Industrial Classification 1980.
 Unadjusted data may be obtained from the Central Statistical Office at the address shown inside the front cover of this publication.

This does not include grain milling, starch, compound animal feeds and processing organic oils and fats industries which are classified to intermediate goods-materials.
 These sum to the total of 1 000 for the production industries.
 See footnote 4 on page 43.

## Output of the production industries

Summary

<sup>1.</sup> The figures for manufacturing industries contain, where appropriate, an adjustment for stock changes and for measurement bias - see supplementary notes 1987 edition.

2. For an index of construction output for Great Britain see Table 12.

3. Mainly building materials.

4. Industries are grouped according to the Standard Industrial Classification 1980.

5. Parts per thousand of GDP(O).

6. Includes adjustments to standardise the length of months.

Output per head is the ratio of the output index numbers published in Table 7.1 and the employed labour force. A monthly series for total manufacturing industries is presented in Table 7.3.
 Detailed figures are being revised.

 Based on the output measure of Gross Domestic Product.
 Revised definition.

The method for calculating whole economy unit wage cost has been revised. The output
measure of GDP has replaced the income measure in the calculation, and an adjustment
incorporated to cover the earnings of the self-employed. See Employment Gazette, May 1986.

<sup>1.</sup> Consumption by fuel producers plus disposals to final users plus (for annual figures only) net foreign trade and stock change in other solid fuels. See also footnotes 6. and 7. to Table 8.5.

2. Inland deliveries for energy use plus refinery fuel and losses minus the differences between deliveries to and actual consumption at power stations and gas works.

3. Including non-energy use and excluding gas flared or re-injected.

4. Also temperature corrected.

5. From August 1985, the figures show the estimated annual outturn.

6. Not Seasonally adjusted.

7. Provisional.

1. Provisional.

Provisional.
 Crude petroleum and natural gas liquids.
 Excluding gas flared or re-injected.
 Crude petroleum, process oils and petroleum products.
 Stock fall (+) stock rise (-).
 Supply greater than recorded demand (-).
 Thermal equivalent of total inland energy consumption in Tables 8.1 and 8.2. A more detailed analysis of the 1985 figures is shown in the Digest of United Kingdom Energy Statistics 1986 Tables 4 and 6.
 Losses in conversion and distribution and used by fuel industries.
 Deliveries, except for gas, electricity and iron and steel industry use of solid fuels.
 Coke and other manufactured solid fuels.
 Coke oven gas and creosote/pitch mixtures.

Including an estimate for slurry, etc., recovered and disposed of otherwise than by the National Coal Board.
 As recorded in the Overseas Trade Statistics.
 Saleable deep-mined revenue coal.
 Output from production faces divided by production manshifts.
 Provisional.

Including any coke and Natural Gas.
 Including quantities used in the production of steam for sale.
 Including oil used in gas turbine and diesel plant and for lighting up coal-fired boilers.
 Including generation by gas turbine, diesel and hydro-electric plant.
 Used on works and for pumping at pumped storage stations.
 Including net imports and purchases from outside sources mainly UKAEA and British Nuclear Fuels.

1. The term indigenous is used in this table for convenience to include oil from the UK Continental Shelf as well

Source: Department of Energy
as the small amounts produced on the mainland.

2. Crude oil plus condensates and petroleum gases derived at onshore
treatment plants.

3. Includes process (partly refined) oils.

4. Includes condensate for distillation.

5. Mainly recycled products.

6. Foreign
trade as recorded by the petroleum industry and may differ from figures published in the Overseas Trade Statistics.

7. Mainly process oils but
may include re-exports of crude oil.

8. International marine bunkers.

9. Provisional. Source: Department of Energy

Sources: Department of Trade and Industry HM Customs and Excise Fertiliser Manufacturers Association

Years ended 31 May.
 Nutrient content.
 Total weight of compound fertilisers.
 Industrial ethyl alcohol is distilled from molasses or derived from other processes: the current usings of molasses spirit in beverage spirit production are believed to be comparable with the usings in the preceding financial year - see explanatory notes in the Supplement of Definitions and Explanatory Notes.
 Figures relate to sales by manufacturers in the United Kingdom who are classified to AH 2581 (Soap and synthetic detergents) previously MLH 275, and who from the first quarter 1981 employ 50 or more, replacing the previous employment level of 25. From the first quarter 1980, figures exclude sales of household cleaning liquid detergent and from the first quarter 1981, sales of paste synthetic detergents.
 Provisional.

1. Figures relate to sales by UK manufacturers employing 75 or more persons from 1st quarter 1981 replacing the

Figures relate to sales by UK manufacturers employing 75 or more persons from 1st quarter 1981 replacing the previous employment level of 25.
 Figures from 1st quarter 1983 to 4th quarter 1983 and 1st quarter 1986 to 2nd quarter 1986 for products of condensation, polycondensation and polyaddition exclude polyamides and silicones. A comparable figure for 4th quarter 1982 would be 132.4.
 Figures from 1st quarter 1984 exclude flexible and rigid foam for products of condensation, polycondensation and polyaddition. A comparable figure for 4th quarter 1983 would be 145.6.
 Figures from 1st quarter 1983 for cellulosics and other plastics and modified natural resins consist only of regenerated cellulose film; an equivalent figure for 4th quarter 1982 would be 13.5.
 From 2nd quarter 1983, figures for intermediate forms between the resin and semi-fabricated stages exclude mouldings and extrusion compounds of phenolics. A comparable figure for 1st quarter 1983 would be 55.9.
 Figures from 1st quarter 1984 for semi-finished products exclude copper clad and glass based industrial laminated thermosetting sheet and extruded flexible plasticised film. A comparable figure for 4th quarter 1983 would be 108.5.
 Excludes all other products of condensation, polycondensation + polyaddition.

7. Excludes all other products of condensation, polycondensation + polyaddition.

Figures relate to sales by UK manufacturers employing 50 or more persons from Q1 1981 replacing the previous employment level of 25.
 Hydrocarbons (other than products of coal tar distillation, benzole refining and wood carbonisation).
 Including that obtained by the dealkylation of toluene.
 Including that used in the production of benzene.
 Includes hydrocarbon benzene from 1985 4th quarter. A comparable figure for 3rd quarter 1985 is 210 108

As a result of the introduction of the new and improved register of business, the series of sales of principal products given in the above table has been revised back to 1980. 2. These figures represent the total sales of principal products of establishments falling below the employment threshold of the Quarterly Sales Inquiries are included. 3. Provisional. 4. Excluding ferrous and non-ferrous metal foundries AH3111/2, and heat and surface treatment of metals, including sintering AH 3138. 5. Excluding process engineering contractors AH 3246. 6. Figures for this industry have been revised in line with those published in the First Quarter 1986 Business Monitor.

7. Excluding electrical equipment installation AH 3480. 8. Excluding shipbuilding and repairing AH 3610, and cycles and motor cycles, AH 31344

Includes naval vessels registered as merchant ships.
 Gross tonnes is a constructed measure of the volume of all the enclosed spaces in a vessel except those occupied by engines, bunkers and crew.
 The total tonnage specified on ordering vessels differs slightly from total actual measured tonnage on appropriate.

The total tonnage specimed on ordering vessels differs slightly from total actual measured tonnage on completion.
 Vessels are shown for export if they are for other than UK registration.
 Modifications include alterations of 500 gross tonnes or more to the tonnage and the country of registration of vessels already on order.
 From Q1 1984 gross tonnage conforms to 1969 International Maritime Organisation Convention on tonnage

measurement of ships.

7. Modifications and cancellations exceed new orders for the period.

# Textiles and other manufactures

1. The methodology underlying the census is different from 1978 onwards compared to previous years.

For years up to 1982 retrospective counts within these new taxation classes have been estimated.
 See notes and definitions – Taxation Class changes.
 Includes taxis.

4. Includes agricultural vans and lorries and showmen's goods vehicles licensed to draw trailers.

4. Includes agricultural vans and lorries and showmen's goods vehicles licensed to draw trailers.

5. Includes combine harvesters, mowing machines, digging machines, mobile cranes and works trucks.

6. Includes three wheelers, pedestrian controlled vehicles and showmen's haulage.

7. Includes personal and direct export vehicles.

8. From 1979 includes exempt tax classes 61 and 62 not previously included.

9. From 1980 excludes electric goods vehicles which are now exempt from licence duty.

10. From 1980 includes electric vehicles which are now exempt from licence duty.

11. Includes old vehicles exempt from tax converted for the first time to the DVLC system.

1. All indices have been revised.
2. Not over 30 cwt. unladen weight.
3. Includes vehicles with drawbar trailers.
4. The figures for road goods transport are estimated from a continuing sample enquiry.
5. The quarterly figures relate to 13-week periods and not three calendar months.
6. Revised to exclude estimates of work done by vehicles under 3.5 tonnes gross vehicle weight.
7. Provisional.

From January 1984 figures for British Rail show 'sponsored' journeys, not 'originating' journeys. A
 'sponsored' journey is a journey on any Business sector of BR irrespective of the Business sector
 on which the journey originated.
 Excludes journeys by Motorail services.
 On annual season tickets, journeys are estimated at the rate of 480 per annum; on other season tickets,
 540 per annum.
 Journeys on all season tickets are estimated at the rate of 600 per annum.

Notes: EC=European Community. Spain and Portugal have now joined the EEC.

Sources: Department of Transport Civil Aviation Authority

Excluding movement by land across the frontier between the Irish Republic and Northern Ireland, passengers travelling between the Channel Islands and Great Britain, passengers carried in aircraft chartered by British government departments and as far as possible, passengers travelling by sea on day trips and HM and other Armed Forces travelling in the course of their duties.
 Including passengers on pleasure cruises beginning and/or ending at UK seaports.
 To avoid disclosure the figure for the first quarter of each year is included with that for the second quarter.
 The figures do not included it lies.

<sup>4.</sup> The figures do not include oil rigs.

Thousands

Note: The statistics are on an overseas trade statistics basis ( see footnote 1. to Table 15.7.)

These are defined as ships, North Sea installations (together comprising SITC (Rev 2)(793), aircraft (792) precious stones (667) and silver (681.1.)).
 Based on the Classification by Broad Economic Categories (BEC) published by the United Nations.

Note: The statistics are on an overseas trade statistics basis (See footnote 1 to Table 15.7) to which a number of changes have been made to the coverage, with effect from 1 January 1981. The changes, which are described below, were previously taken into account by means of balance of payments adjustments.

a) Trade in precious stones now excludes consignments which cross national boundaries on a temporary basis only, i.e. for valuation or for exhibition, previously these were included in the Overseas Trade Statistics figures each time they arrived or left the United Kingdom.

b) Trade in secondhand aircraft is excluded where the aircraft are being imported or exported solely for the purpose of repair or modification, but the value of the work done in undertaking the repair or modification is included.

Contain atomic analysis metarials previously expluded are now included.

c) Certain atomic energy materials previously excluded are now included.

The numbers on the left hand side of the table refer to the Section and Division code numbers of the Standard International Trade Classification, Revision 2.

Statistics of visible trade on a balance of payments basis (shown in Table 16.1) are obtained by making certain
adjustments in respect of valuation and coverage to the statistics recorded in the Overseas Trade Statistics.
These adjustments are described in detail in United Kingdom Balance of Payments 1963 Edition.
 Export unit value as a percentage of the import unit value index.

Note: The statistics are on an overseas trade statistics basis (see footnote 1 to Table 15.7).

These are defined as ships, North Sea installations (together comprising SITC (Rev 2) (793), aircraft (792), precious stones (667) and silver (6811)).
 Based on the Classification by Broad Economic Categories, (BEC) published by the United Nations.

1. The ratios were first introduced in an article in the August 1977 edition of Economic Trends The Home and Export 1. The ratios were first introduced in an article in the August 1977 edition of Economic Trends The Home and Export Performance of United Kingdom Industries' which described the conceptual and methodological problems involved in measuring such variables as 'import penetration'. The latest ratios for the full detail within manufacturing (over 200 AHs) are shown in business monitor MQ12 Import Penetration and Export Sales for Manufacturing Industry. An article in Economic Trends giving a longer back run of the ratios on a Standard Industrial Classification 1980 basis is planned for release at a later date.
2. The calculation of the ratios is inappropriate for certain industries. In such cases, and where suitable data are not available, the industry has been omitted from the analysis. The Activity Headings concerned are: AH2247.2
Procious metals AH 2396 (701) Inswerded procious stones AH2438 Ready, mixed concerts AH3138 Heat and surface.

uvamanse, the industry has been omitted from the analysis. The Activity Headings concerned are: AH2247.2 Precious metals, AH 2396 (pt) Unworked precious stones, AH2436 Ready-mixed concrete, AH3138 Heat and surface treatment of metals, AH3246 Process engineering contractors, AH3480 Electrical equipment installation, AH4121 Slaughterhouses, AH4370 Textile finishing, AH4660 Fur goods, AH4672 Shop and office fitting, 4820 retreading and specialist repairing of rubber tyres, AH4910 Jewellery and coins, AH4930 Photographic and cinematographic processing laboratories.

Manufacture of paper and paper products; printing and

publishing
Processing of rubber and plastics

 The figures for M0 are the average of levels during December, whereas for M2 and for broad money, £M3 and PSL2, they are the levels as at the end of December. The figures for December 1981 show in the first line levels on the basis of the old banking sector and in the second line on the basis of the new monetary sector. Banking sector levels for December 1981 are partly estimated.
 The figures for M0 are the changes between the average levels in each month. Source: Bank of England

<sup>1.</sup> The Cost of Living Advisory Committee (now renamed the Retail Prices Index Advisory Committee) recommended in 1962 that until a satisfactory index series based on actual prices became available half the expenditure on meals out should continue to be allocated to the food group and the other half spread proportionately over all groups, including the food group. The index for meals out for 16 January 1968 implicit in this recommendation was 121.4. Since January 1968 an index series based on actual prices has been available and indices in this series have been linked with the implicit index for meals out for 16 January 1968, to obtain indices for meals out with 16 January 1962 taken as 100.

<sup>2.</sup> Provisional.

3. The index has been rebased to 13 January, 1987 = 100 but detailed figures are not yet available.

Note: To find the purchasing power of the pound in 1980, given that it was 100 pence in 1972, select the column headed 1972 and look at the 1980 row. The result is 32 pence.

Source: Central Statistical Office

These figures are calculated by taking the inverse ratio of the respective annual averages of the General Index of Retail Prices. See table above.

Note: The purpose and methodology of the Tax and price index were described in an article in the August 1979

Source: Central Statistical Office issue of Economic Trends and in the September Economic Progress Report published by the Treasury. The purpose is to produce a single index which measures changes in both direct taxes (including national insurance contributions) and in retail prices for a representative cross-section of taxpayers. Thus, while the Retail prices index may be used to measure changes in the purchasing power of after-tax income (and of the income of non-taxpayers) the Tax and price index takes account of the fact that taxpayers will have more or less to spend according to changes in direct taxation. The index measures the change in gross taxable income which would maintain after tax income in real terms.

1. These figures reflect the late timing of the 1979 budget.

Index numbers constructed on a net sector basis, i.e. transactions within sector are excluded.
 Index numbers are compiled exclusive of VAT. Revenue duties (on cigarettes, tobacco, alcoholic liquor) are included, as is the duty on hydrocarbon oils.
 Provisional.

For footnotes 4 to 6 see page 116.

Index numbers constructed on a net sector basis, i.e. transactions within sector are excluded.
 Index numbers are compiled exclusive of VAT. Revenue duties on cigarettes, tobacco, alcoholic liquor, matches and mechanical lighters are included. Duty on hydrocarbon oils is included in series for materials and fuel purchased by broad sectors of industry but excluded from output price series.

<sup>3.</sup> Provisional.
For footnotes 4 to 6 see page 116.

## Index numbers of producer prices

continued

1980=100

For footnotes 1 to 3 see page 113.

4. A base weighted (1980=100) combination of the separate price indices for contractors' output in the five new work sectors.

5. The index covers only dwellings on which building societies have approved mortgages during the period. The cost of land is included.

6. Figures are based on a monthly return covering 90 per cent of building society mortgages.

The figures represent the average earnings including bonus, overtime,etc., and before deduction of
income tax or insurance contributions, in one week in the month indicated. Administrative and clerical
workers and other salaried persons have been excluded.
 Workers ordinarily employed for not more than 30 hours per week are classified as part-time.

England and Wales only.
 Because of a dispute in the steel industry, insufficient information is available to enable a reliable index for 'metal processing and manufacturing' to be calculated, but the best possible estimates have been used in the compilation of the indices for manufacturing and whole economy. The index series for this group has a base of April 1980=100.
 Provisional.

#### Average earnings index: all employees: by industry

Note: The seasonal adjustment factors currently used for the SIC 4980 series are based on data up to December 1982.

A new service industries series has been introduced into Table 5.1 in Employment Gazette from the October 1986 issue.

Percentage change over previous twelve months.

Index of purchase prices of the means of agricultural production and of producer prices of agricultural products  $^{\rm l}$

## Index

#### Figures indicate Table numbers

Agricultural land, 6.1
Agriculture, 6.1-6.3
employment, 3.2, 3.7
index of purchase prices, 18.12
index of producer prices, 18.12
Agriculture and forestry
average earnings, 18.10
Alcoholic drinks, 1.5, 6.14
retail prices indices, 18.1, 18.2
Aluminium, 10.3
Animal feedingstuffs, 6.5, 6.6
price indices, 18.12
Animals and animal products, 6.2, 6.3, 6.8, 6.9
price indices, 18.12
Aviation, civi, 13.9, 13.11, 13.12

Bacon and ham, 6.9 Balance of payments, 16.1-16.3 Banking sector, private sector deposits, 17.3 private sector borrowing, 17.3 Barley-see Cercals Beer, 1.5, 6.14 Births registered, 2.3 Biscuits, 6.4 Blankets, wool, 11.3 Boots and shoes-see Footwear Bricks, 12.3 British Government securities, 20 years yield, 17.5 British Rail, freight traffic, 13.8 passenger journeys, 13.7 Broadcast receiving licences, 19.1 Brushes, 11.11 Building block (concrete), 12.3 Building materials and components, 12.3 producer price index, 18.6 Building societies, deposits and advances, 17.3 Buildings, agricultural: price indices, 18.12 Bulk carriers, 13.10 Butter, 6.11

Canned fruit, 6.12 Canned meat, 6.9 Canned soups, 6.12 Canned soups, 6.12
Canned vegetables, 6.12
Capital expenditure, 1.8, 1.9
Capital formation, 1.7
Capital issues, 17.3
Carbon black, 11.10 Cargo liners, 13.10 Carpets and rugs, 11.12 Cars, Passenger—see Motor vehicles Cattle, 6.2, 6.8 price indices, 18.12 Cement, 12.3 Central government borrowing requirement, 17.1, 17.2 financial transactions, 17.1 Cereals, 6.1, 64 price indices, 18.12 Cheese, 6.11 Chemicals, 9.1-9.5 producer price index, 18.6 Child benefit, 4.1 Chocolate and sugar confectionery, 6.12 Cinemas: admission and takings, 19.1 Civil Service: staff employed, 3.4 Clothing, 11.1, 11.4 employment, 3.3 Clothing and footwear, 1.5 producer price indices, 18.6 retail price indices, 18.1, 18.2 Coal and coal-mining, 8.4, 8.5, 8.7

Cocoa beans, 6.12
Coffee, raw, 6.12
Coffee, raw, 6.12
Commercial vehicles—see Motor vehicles
Compound feedingstuffs, production, 6.6
Concrete, ready mixed, 12.3
Consolidated fund, 17.1
Construction, 12.1, 12.2
employment, 3.2
producer price index, 18.6
Consumer credit, 17.3
Consumer's expenditure, 14, 1.5
Container vesuels, 13.10
Copper, 10.3
Crime—see Law enforcement
Crops harvested, 6.1
Crushed rock aggregates, 12.3

Dairy products, 6.11
Deaths registered, 2.4
Dental services, 4.4
Detergents, 9.1
Distributive trades,
average earnings, 18.10
Domestic appliances,
producer price index, 18.6
Durable goods, 1.5
retail price indices, 18.1, 18.2
Dyestuffs, 9.3

Earnings, in manufacturing and other industries, 18.7, 18.9 Eggs, 6.11 price index, 18.12 Electrical engineering, 10.5—10.8 producer price index, 18.6 Electricity, 8.7—8.9 Employment, 3.1-3.14 analysis by industry, 3.2, 3.3 employees in, 3.2, 3.3 vacancies, 3.14 Energy, 8.1-8.11 Engineering industries, new orders, 10.8 orders on hand, 10.7 producer price index, 18.6 sales of goods and work done, 10.5 volume index numbers of sales, 10.6 Entertainment, 19.1 Esparto, 11.9 Exchange rates, sterling effective, 17.5 US Spot, 17.5 Exports, 15.1, 15.2, 15.7 analysis by areas and countries, 15.4, 15.5 import penetration and export sales ratios, 15.10 unit value index, 15.9

Factor incomes in the gross national product, 1.2 Family allowances, 4.1 Family income supplement, 4.2 Family practitioner services, 4.4 Farea: indices of stage bus services, 13.6 Feedingstuffs, animal, 6.5, 6.6 Felt base floorcoverings, 11.12 Fertilisers, 9.1 price index, 18.12 Fish, 6.10 Fibre cement products, 12.3 Fixed capital expenditure: in manufacturing industry, 1.8 in the distributive and service industries, 1.9

volume index, 15.8

Floorcoverings, 11.12
Flour, 64
Flowern and plants, price indices, 18.12
Food, 1.5, 6.7—6.12
employment, 3.3
producer price index, 18.6
retail price indices, 18.1, 18.2
Footwear, 11.5—see also Clothing and footwear
Forces pay, 1.4
Foreign trade—see imports, exports
Forestry—see Agriculture and forestry
Freight train traffic, 13.8

Fuel and light, 1.5
retail price indices, 18.1, 18.2
Fuels, supply and use of, 8.3
Furniture, 11.7

Gas, 8.6, 8.8 Glucose, 6.7 Goods and services, 1.1 Gross domestic fixed capital formation 1.1, 1.7 Gross domestic product, 1.1, 1.2, 1.3 Gross national product, 1.2 Gypsum, 12.3

Hardwood, 11.6
Hire purchase and other credit, 17.3
Hosisery, 11.4
Hours worked, 18.8
overtime and short-time in
manufacturing industries, 3.8
House building, 12.4
Housing, 1.5, 12.4, 18.6
price indices, 18.1, 18.2, 18.6

Imports, 15.1, 15.3, 15.7
analysis by areas and countries, 15.8, 15.10
import penciration and export sales ratios, 15.10
unit value index, 15.8
Index of road transport, 13.3
Industrial ethyl alcohol, 9.1
Industrial production, 1.3
index, 7.1
Industrial stoppages, 3.15
Instrument engineering, 10.5—10.8
producer price index, 18.6
Insurance, banking and finance
average earnings, 18.10
Inter-bank, 3 month rate, 17.5
Iron and steel, 10.1
capital expenditure, 1.8

Jam and marmalade, 6.7

Labour, see Employment
Law enforcement, 5.1, 5.2
Lead, 10.4
Life assurance and superannuation funds,
net inflow, 17.3
Linoleum, 11.2
Livestock, 6.2, 6.3
price indices, 18.12
Local authorities, borrowing requirement, 17.2
Local authority manpower, 3.6
London clearing bunks' base rate, 17.5
London Regional Transport railweys,
passenger journeys, 13.7

Machinery, agricultural, price indices, 18.12 Maize, 6.5 Man-made fibres, 11.2-11.3 producer price index, 18.6 Manpower, 3.1 local authority, 3.6 Manufacturing industries, fixed capital expenditure in, 1.8 wages and salaries per unit of output, 7.3 Margarine, 6.10 Market prices of goods and services, 1.1 Marriages registered, 2.3
Meals bought and consumed outside the home, retail price index, 18.1, 18.2 fechanical engineering, 10.5—10.8 producer price index, 18.6 Merchant shipping, 10.11 employment, 3.3 producer price index, 18.6 Merchant shipping, 13.10 Metal goods, 10.5 employment, 3.3 producer price index, 18.6 Milk, 6.11 price index, 18.12 Milling offals, 6.5 Miscellaneous goods, retail price indices, 18.1, 18.2 Monetary Aggregates, 17.4 Motor vehicles, 10.9, 10.10 employment, 3.3 licences, current, 13.2 new registrations, 13.1 producer price index, 18.6

National income and expenditure, II—9
National insurance, 1.4, 4.1
National Loans Fund,
receipts and payments, 17.1
National savings, 17.3
Nitrogen, 9.1
Non-ferrous metals, 10.3, 10.4
capital expenditure, 1.8
producer price index, 18.6
Nylon—see Man-made fibres

Outmeal and flakes, 64
Outs-see Cereals
Official reserves, 164
Oil-see Petroleum
Oilcake and meal, 65
Oilseeds and muts, 630
Ordinary shares,
price index, 17.5
Output, costs per unit, 7.3, 7.4
index numbers of, at constant factor cost, 1.3
per head, 7.2
per hour, 7.2
Overtime, 338

Paints, 9.3
Paper and board, 11.8
producer price index, 18.6
Paper-making materials, 11.9
employment, 3.3
Passenger journeys, 13.5, 13.7, 13.11, 13.12
Pensions and allowances, 4.1—4.3
Personal income, 1.4
Petroleum, 8.10, 8.11
Phosphate, 9.1
Pig tron, 10.1
Pigs, 6.3, 6.8
price indices, 18.2
Pitwood, 11.7

Plaster, 12.3 Plasterboard, 12.3 Plastics materials, 9.4 Plywood, 11.7 Population, 2.1, 2.2 Potash, 9.1 Potatoes, 6.1, 6.7 Pottery, 11.11 Poultry, 6.3 Pound, purchasing power of, 18.4 Price index numbers, agricultural, 18.12 export unit value, 15.9 home costs per unit of output, 7.3 import unit value, 15.9 labour costs per unit of output, 7.3 producer, 18.6 retail. 18.1. 18.2. 18.3 wages and salaries per unit of output, manufacturing, 7A whole economy, 7.3 Prices, securities, 17.5 Printing and publishing: employment, 3.3 Private sector, bank deposits, 17.3 bank lending, 17.3 liquidity, PSL2, 17A Producer price indices, 18.6
Production, 1.1, industrial index, 7.1
indices of labour costs, 7.4 output per head, 7.2 output per head, 7.3 Public administration, average carnings, IR.10

Public corporations, borrowing requirement, 17.2

Public road passenger transport, journeys, 13.5 receipts, 13.5 Public sector borrowing requirement, 17.2 Pulpwood, 11.9

Radio and electronic components producer price index, 18.6
Railways- see British Rail and London Transport

#### Units of measurement

#### I. Common units of measurement and their equivalents

Length			
Congen	1 millimetre (mm)	= 0.039 370 1 inches	
1 centimetre (cm)	= 10 millimetres	= 0.393 701 inches	
1 metre (m)	= 1,000 millimetres	= 1.093 61 yards	
1 kilometre (km)	= 1,000 metres	= 0.621 371 miles	
· monoto (min)	1,000 11101100	0.02.7077	
	1 inch (in)	= 25.4 millimetres or 2.54	centimetres
1 foot (ft.)	= 12 inches	= 0.3048 metres	
1 yard (yd.)	= 3 feet	= 0.9144 metres	
1 mile	= 1,760 yards	= 1.609 34 kilometre	es
Area			
	1 square centimetre	= 0.16 square in	nches
1 square metre (m²)	= million square millimetres	= 1.195 99 square y	ards
1 hectare (ha)	= 10,000 square metres	= 2.471 05 acres	
1 square kilometre (km²)	= million square metres	= 247.105 acres	
	1 square inch (sq. in.)	= 645.16 square millimetre	es or 6.451 6 square centimetres
1 square foot (sq. ft.)	= 144 square inches		tres or 929.030 square centimetres
1 square yard (sq. vd.)	= 9 square feet	= 0.836 127 square metr	
1 acre	= 4,840 square yards	= 4,046.86 square metres or	
1 square mile (sq. mile)	= 640 acres		etres or 258.99 hectares
Volume			
· crame	1 cubic centimetre (cm <sup>3</sup> )	= 0.061 023 7 cubic inc	hes
1 cubic decimetre (dm³)	= 1,000 cubic centimetres	= 0.035 314 7 cubic fee	
1 cubic metre (m³)	= million cubic centimetres	= 1.307 95 cubic ya	rds
	1 cubic foot (cu. ft.)	= 0.028 316 8 cubic met	res or 28.316 8 cubic decimetres
1 cubic yard (cu. yd.)	= 27 cubic feet	= 0.764 555 cubic metre	
Capacity			
1 litre (I)	= 1 cubic decimetre	= 0.2200 gallons	
1 hectolitre (hl)	= 100 litres	= 22.00 gallons	
	1 pint	= 0.568 litres	
2 pints	= 1 quart	= 1.137 litres	
8 pints	= 1 gallon	<ul> <li>4.546 09 cubic decime</li> </ul>	
36 gallons (gal.)	= 1 bulk barrel	= 1.636 56 hectolitr	es
Weight			
	1 gram (g)	= 0.035 274 0 ounces	
1 kilogram (kg)	= 10 hectograms	= 2.204 62 pounds	
1 tonne (t)	= 1,000 kilograms	= 1.102 31 short tons or	0.984 2 long tons
	1 ounce avoirdupois (oz.)	= 28.349 5 grams	
1 pound avoirdupois (lb.)	= 16 ounces	= 0.453 592 37 kilogram	ns
1 hundredweight (cwt.)	= 112 pounds	<ul> <li>50.802 3 kilogram</li> </ul>	
1 short ton	= 2,000 pounds	= 907.184 74 kilograms or	
1 long ton	= 2,240 pounds	= 1,016.05 kilograms or 1.0	16 05 tonnes
1 ounce troy	= 480 grains	= 31.1035 grams	

#### II. Other units and equivalents used in the Monthly Digest of Statistics

Energy:	British thermal unit (Btu)	The amount of heat required to raise 1 lb. of water through 1 degree fahrenheit at or near 39.1 degrees fahrenheit					
	Therm 100,000 British thermal units						
	Gigawatt hour (GWh)	10 <sup>6</sup> kilowatt hours					
	Megawatt (MW)	106 watt					
	Terawatt hour (TWh)	10° kilowatt hours					
Food and drink:	Butter	23,310 litres milk	= 1 tonne butter (average)				
	Cheese	10,070 litres milk	= 1 tonne cheese				
	Condensed milk	2,550 litres milk	= 1 tonne full cream condensed milk				
		2,953 litres skimmed milk	= 1 tonne skimmed condensed milk				
	Milk	1 million litres	= 1,030 tonnes				
	Milk powder	8,054 litres milk	= 1 tonne full cream milk powder				
		10,740 litres skimmed milk	= 1 tonne skimmed milk powder				
	Eggs	17,126 eggs	= 1 tonne (approximately)				
	Sugar	100 tons raw sugar	= 95 tonnes refined sugar				
	Beer	1 bulk barrel	= 36 gallons irrespective of gravity				

# Monthly Digest of Statistics

The Monthly Digest of Statistics provides basic information on 20 subjects including population, employment and prices, social services, production and output, energy, engineering, construction, transport, catering, national and overseas finance and the weather.

The Monthly Digest of Statistics contains mostly runs of monthly and quarterly estimates for at least two years and annual figures for several more.

Other CSO monthlies are Financial Statistics and Economic Trends

The Monthly Digest Annual Supplement gives definitions and explanatory notes for each section. An index of sources is included.

ISBN 0 11 620279 3
